SUMMER INTERNSHIP PROGRAM FOR POLY, B.E. & M.C.A. STUDENTS

Internship Training:-

About the program

SSIT Pvt. Ltd offer internship projects to B.E. (IT &CS) & M.C.A. students to give them an exposure to real time work environment by letting them work on live projects. Objective of SSIT Pvt. Ltd Internship Program is to assist technical graduates in enhancing their overall skills set to improve their employability level to match industry expectations. SSIT Pvt. Ltd is offering internship programmes to Engineering students, which will be totally a practical exposure to the students.

Experience of working on live projects

The internship programme is designed to enable interns work on live projects to give them an opportunity to apply the theoretical knowledge they have gained in the classroom. Interns get to see the immediate impact of programming tools and techniques applied by them.

Benefits for students

More and more corporations around the world recognize that, in order to gain a competitive advantage, they need to make sure their people know how to handle themselves at work and how to relate with the new technologies. Some of the things, which students will learn during their internship SSIT Pvt. Ltd., are:

Real Time Trainers

Always the employer prefers to go for a person who has an experience, because, by hiring an inexperienced person the company has to incur an additional cost on training of the candidate, so always they try to avoid going for a fresher. To remove this barrier for the fresher's SSIT Pvt. Ltd is giving them an opportunity to become a real time trainee in the best and top most companies.

Assured Opportunities in top companies

Doing an internship in SSIT Pvt. Ltd. can fetch you a better and bright future by giving an opportunity of being placed in the top companies. We have a track record of giving placement assistance to the outperformed students in their internship programme to the well known companies in the IT sector. Come grab opportunities and make your carrier successful.

Exposure to current technologies

In today's world, academic knowledge alone is not sufficient to grow and excel in life; you need something more which adds up to your qualification. As we already told, you will be treated as a real time trainee; you will be exposed to the latest technologies in the market, which will give you a better chance of placement.

Corporate Culture

Along with the knowledge and skills, it is very important to know the corporate culture that you have to follow in the corporate world. Even though you are not an employee of the company, you will be working with the employees of the company through which you can learn about the corporate culture and the organization structure.

Learning

There are many colleges, which are offering engineering and technical courses to the students, through which students can gather only the theoretical knowledge about the subject, but there will be a lot of difference between theory and practical. At last, students are not getting a practical exposure of the subjects they study, so to fill this in the fresher's SSIT Pvt. Ltd. is offering the internship programme for Technical students. Students who do an internship with SSIT Pvt. Ltd. can learn about the latest technologies that are existing in the market. In addition, you will be working with a team of experts in the company where you have a chance of learning from their experience and you can have a real working environment in the company.

Internship Certificate

All the students who successfully complete their projects with SSIT Pvt. Ltd will get an internship certificate, which will give them a big edge over their peers while applying for final placement. At the end of internship, the Project Guide will review final project report and the daily reports of interns before handing over the certificates.

Note - This Internship Certificate will be send to the Placement Officer of the college. Interns can collect the same from their Placement Officer.

Benefits for College

Not only students but colleges also benefit by getting associated with SSIT Pvt. Ltd. for Internship Program. Some of the direct benefits what college gets are

Higher Placement Percentage

As we help students for getting a final job it help colleges also in improving their overall placement track record.

Enhanced College brand image in corporate world

SSIT Pvt. Ltd internship program is well recognized by lot of leading MNC Companies and are keen to hire Engineering students who have done their internship projects with us. It works like a big push for college brand awareness when their students do their internship with SSIT Pvt. Ltd.

Higher placement packages for students
Reduced burden on college career placement officer
